## Bio

I'm a creative person, I like to research on new stuff, understand different perspectives of art and design. I get intense feeling when i see something creative and inovative, whether its child's drawing or the end credits design of 'Into the Spiderverse'.

I think that art and design requires research and most importantly 'influence'.

Appreciation of every art form is necessity if we want to learn anything. That's how we survive: through our adaptability.

## Freelance Projects

<b>RSG INDIA</b>	<ul style="list-style-type: none"><li>• Company Portfolio</li><li>• Built on Wordpress</li></ul>
